

### **COMPANY** PROFILE

# The Origins

### Establishing ourselves in a market in continuous evolution

Everything starts in 1982 in the haemodialysis clinics listening to the needs of patients, we understood the need for technological innovation and comfort to improve patients' quality of life.

Thanks to a well-established team, we created the conditions for the affirmation of our brand on the international market

The people who have chosen our products are still today the witnesses of the quality of our work.

Their satisfaction and the trust placed in us are the lifeblood that drives us to constantly improve ourselves

## Our Vision

# Concrete goals to achieve great results.

Gardhen Bilance has been active in the medical device manufacturing sector for decades offering a wide range of services. Thanks to our customer care and a team of technicians/installers, we are able to intervene promptly with maintenance and service activities.

We are committed to spreading a 'culture of guarantee' by demonstrating the quality of goods and services from our products. The network of partners who use our products is increasing year after year, which is testimonial of the seriousness and professionalism of our approach to business relations.

We have made our medical devices compatible with telemedicine services

Remote patient management is already a reality.

# We love to get involved and propose the **MADE IN ITALY** in the world

And more countries are coming

EUROPE | ASIA | AFRICA | AMERICA | OCEANIA |

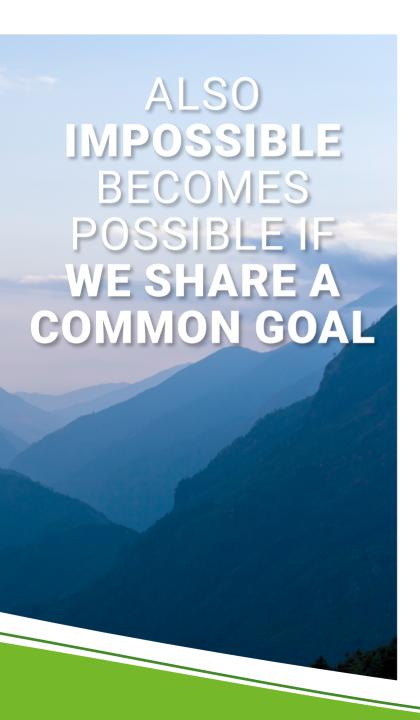

# Our Mission

# We put all our experience at the service of the community

Our mission is to find high-performance technical solutions that ensure maximum comfort and best performance. Therefore:

- We analyse the information we receive from our users and convert it into functional, pleasant and long-lasting solutions.
- We use feedback from the different markets to continuously improve our products, develop new ones and meet the needs of healthcare professionals and patients.
- We pay great attention to the conditions of use and to complying with mandatory standards.

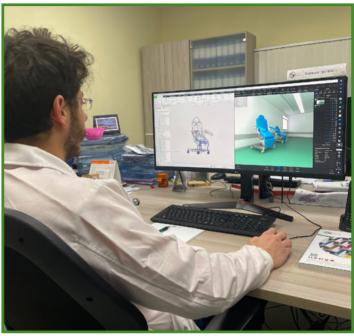

- We meticulously care for our medical devices down to the smallest detail to ensure robustness, safety and efficiency, without neglecting other fundamental criteria such as aesthetics, environmental impact and hygiene.
- We offer medical solutions designed to last. Customer satisfaction fuels our entrepreneurial spirit being our constant source of energy.
- We offer our customers 'Top Level' after-sales service.

We work for a better society, providing all our professionalism and expertise. We export the beauty of Made in Italy to the world, strengthening our leadership and that of our partners in the global market.

### **DESIGN AND R&D**

We design and develop standard and custom medical devices and medical aids.

### MARKETING AND COMMUNICATION

We develop sales strategies and digital and editorial communication campaigns.

### **QUALITY CONTROL MANAGEMENT**

We carry out testing according to the **international** standards.

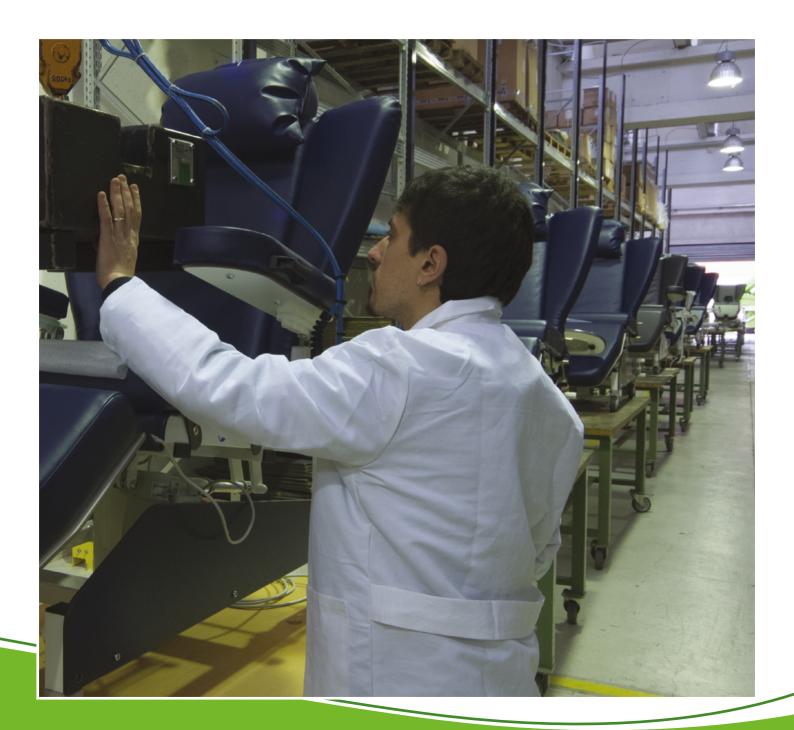

### **MANUFACTURING**

Thanks to the state-of-the-art systems that support our production lines, we can have full control of the production chain. **The know-how is firmly in the hands of the company.** 

### **UPHOLSTERY**

We manufacture the paddings and the pillows to be installed on medical devices and their accessories.

### **LABORATORY**

Official partner of Dewert Okin and other brands for repair and spare parts.

### **LOGISTIC**

We operate on the national territory with our fleet, while in the world we use the logistic support of the best international companies.

# The synergy of company branches
