Emergency room

Resuscitation

Operating room

Intensive care

## Benefits and standard equipment

- Sturdy construction made of technopolymer and epoxy powder coated steel sheet, achieving: light weight, maneuverability and practicality of use.
- Accurate design to the smallest detail, harmonizes with any environment.
- Self-supporting, one-piece structure.
- Wide technopolymer plastic table top made of low relief, without sharp edges to facilitate sanitation. Height from the ground 1000 mm.
- Ergonomic push handle securely attached to the frame on the right side of the cart.
- Front: arranged for central locking with key and insertion of modular drawers, without sharp edges with rounded interior. Silent sliding of drawers on ball-bearing slides, equipped with stops.
- Defibrillator plate: plexiglass base (390x320x20h mm) and stainless steel support tube, 360° rotatable and lockable every 10°. Locking device by means of straps adaptable to any size of device.
- Stainless steel height-adjustable post rod with locking device.
- Cardiomassage plate made of transparent plexiglass.
- Drawers made entirely of technopolymer; no. 3 drawer module 1 dimensions 450x485x135h; no. 1 drawer module 2 dimensions 450x485x275h.
- Closure with drawers locked by the cardiac massage plate and with disposable plastic seals (No. 617363), No. 20 supplied with the cart.
- Left side with additional removable work surface made of technopolymer plastic material; recessed compartment complete with four shelves with faceplate.
- Right side features a recessed technopolymer compartment; no.1 waste receptacle; no.1 catheter or probe holder; no.1 shelf with faceplate.
- Rear recessed storage compartment with fixing straps; no. 1 bar with hooks for accessories.
- Wheels No. 4, 125 mm diameter, antifriction, pivoting of which No. 2 antistatic and No. 2 with lever locking system, wheel and fork on ball bearings.
- Integrated perimeter bumper at the base of the trolley.
- Overall dimensions 670x640x1000/1600h mm.

## Recommended accessories

- Accessory Code 266025 Lock with anti-trauma key
- Accessory Code 617428 Compartment for suction pump
- Accessory Code 617364 Holder for liquid collection vessel
- Accessory Code 617375 1-liter liquid collection jar
- Accessory Code 617376 3-liter oxygen cylinder
- Accessory Code 617377 5-liter oxygen cylinder
- Accessory Code 617324 Drawer dividers with 20 compartments

## Special arrangements upon request

It is also possible:

- Require a central locking device for drawers with seal but without a CPR plate.
- Move the cardiac massage plate to the back of the trolley.
- Move the bottle holder to one side of the trolley.
