# Francis evolution 2.0

# Italian design and technology

COLLAPISBLE SIDE RAILS COUPLE. THE SIDE RAILS CAN BE PLACED IN 3 POSITIONS.

FOOT CONTROL

HEIGTH ADJUSTMENT ACHIEVABLE THORUGH MOTORIZED COLUMNS. THE MOTORIZED COLUMN ARE EQUIVALENT AND WAY BETTER THAN SYSTEMS WITH LEVERISM ALSO BECAUSE THEY ALLOW AN EASY CLEANSING OF THE DEVICE.

# **Benefits**

- Multifunctional operating table. It can be used for laser surgery intervention.
- Reduced footprint frame for an easy approach to the device.
- The device has high stability and it is made out with high end materials with non reflecting surface.
- Mattress in expanded foam with high density.
- Special padding made out of siliconic material with the following properties: water-repellant, non-toxic, antibacterial, resistant to both body and chemical liquids.
- Independent joints to achieve several positions.
- High stability for patient's transport.
- High performing wheels for easy transport even with the patient on board.
- Any part is exposed to wear.
- The device can be fully sanitized.
- It can be equipped with half-side rails or with adjustable armrests.
- It can be equipped with a wide range of accessories, allowing the surgeon to operate easily.
- Anti-shock position.
- Operativity is ensured for 24h with no need to conenct the device to the power grid.

#### Francis Evolution 2.0

## **Standard features**

- Standard features
- Lying surface didived into three sections with double articulation.
- No.6 DIN bars in stainless steel. A wide range of accessories can be fitted on the bars Equipment code AC134.
- Motorized backrest.
- Motorized legrest.
- Motorized height adjustable through telescopic columns.
- Motorized Trendelenburg position.
- Software for mevements' management.
- Electric low tension motors, spline type.
- Multitension power.
- Upholstery: with anti-bacterial properties, flame retardant class 11M, antimicotic, ecologic, latex free, phtalate free. Resistant to: alchool, sodium hypochlorite max 5%, a wide range of common used detrgent, liquid and other biological fluids. Equipment code AC87/1.
- Supporting surface in HPL.
- Central section's sliding mechanism to avoid chest compression.
- Wheels diam. 150mm.
- Centralized and directional braking system activated through bilateral pedals Equipment code AC7L2G.
- 5th wheel diam. 100mm Equipment code AC118L.
- Equipotential node.
- Emergency battery Equipment code AC17L.
- Non-reflecting painting made out with epoxy and thermosetting powders.
- Handset for movements' activation.
- Foot controls located at the abse of the device.
- Paper roll holder placed behind the back Equipment code AC11.
- HPL side rails couple Equipment code aC105L.
- Inhibition key for the handset Equipment code AC34L.

#### 10 BUTTONS HANDSET -STANDARD FEATURE

Couch's movements are controlled by a 10 buttons handset with a 3,5 m coiled cable;

For patient's safety purpose the handset is provided with an inhibition key, equipment code AC34L. The handset is user friendly and has visual pictograms useful for partially sighted people. Insulation IP66.

PAPER ROLL HOLDER PLACED BEHIND THE BACK

### Motorized movements activated through the handset

From patient's stay to discharge, both operator and patient can adjust the backrest, the legrest, the incliantion of the seat and the height of the device.

> CHAIR AND COUCH WITH NO CHEST COMPRESSION. INDEED THE DEVICE HAS AN AUTOMATIC TRANSLATION SYSTEM SYNCHRONIZED WITH THE BACKREST'S MOVEMENT. THIS UNIQUE FEATURE AVOIDS ANY CHEST COMPRESSION WHILE THE BACK IS RAISED.

PERFECT POSTURE FOR MANY CLICNICAL NEEDS. THE SURFACE IS MICROMETRICALLY ADJUSTABLE THROUGH AN EXTREMELY RESISTANT HANDSET.

5

### Motorized movements activated through the handset

From patient's stay to discharge, both operator and patient can adjust the backrest, the legrest, the incliantion of the seat and the height of the device.

SHOCK POSITION TO FAVOUR VENOUS RETURN IN CASE OF HYPOTENSION OR SIMPLY TO ACHIEVE A POSTURE THA IS MORE CLOSE TO OPERATOR'S NEEDS.

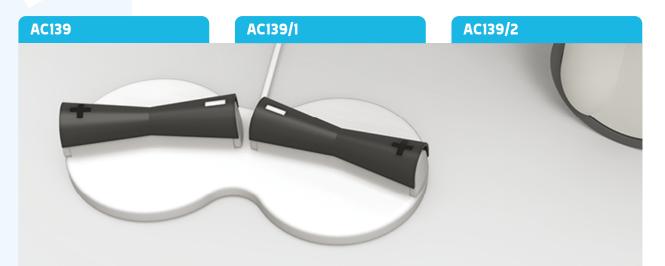

TRENDELENBURG

#### **Recommended accessories**

AC106

Single size, removable extra cushion to allow prone position. The mattress and the supporting surface can be provided with a face hole.

Foot controls located on the floor for height adjustment, they can be placed around the device according to user's need. Foot controls located on the floor for backrest adjustment, they can be placed around the device according to user's need. Foot controls located on the floor for Trendelenburg and reverse Trendelenburg adjustment, they can be placed around the device according to user's need.

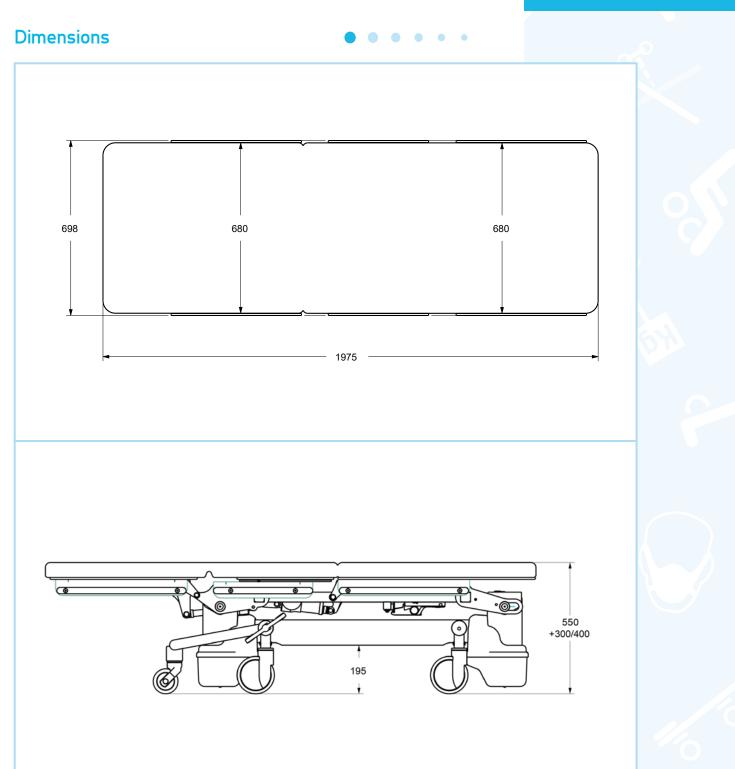

#### AC104

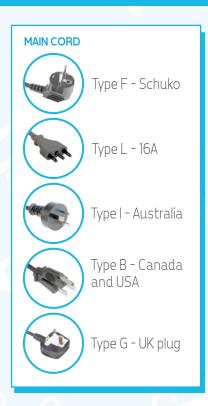

Accessory AC104/L sliding armrests on bilateral DIN bars. They adapt to every posture and moves simultaneously with teh lying surface. They are tiltable and swivable and can be adjusted in height.
