TECHNOLOGY & FUNCTIONALITY

The picture depicts the device with the following optional components:

- 1** No. ACCF10 - Defibrillator/Monitor Door Plan
- 2** Code ACCF9 - Cutter holder

Other features of the medical device

- Solid, sturdy construction with steel sheets painted with thermosetting epoxy powder.
- Resistance to tipping.
- Structure lightweight, self-supporting monocoque.
- Large storage capacity.
- 4 castors Ø 125 mm stainless swivel castors including two with dual-action brake with foot pedal. The wheels are non-marking, low rolling resistance, highly silent, sliding on bearings and high capacity.
- Table top made of plastic material without sharp edges for easy cleaning and disinfection.
- Pull-out shelf with push and pull opening.
- No. 6 Drawers in steel sheet sliding on rails with soft closing (the guides for sliding drawers support up to 60 kg).
- Central locking with key (No. 2 Keys supplied).
- First drawer complete with tamper-evident seal.
- No. 10 self-destructive seals upon removal.
- No. 3 bars DIN standardized on the sides.
- No. 1 bar DIN standardized rear.
- Corner bumpers placed on the 4 corners of the base.
- Pull-out shelf with push and pull opening.
- Push handles built into the cover.
- Optional components interchangeable and removable without tools.

Drawers with soft closing

The drawers are made of sheet steel and slide on slides with soft closing. The drawer runners are extremely strong supporting up to 60 kg.

Recommended optional components
