# Iside 1.0
FIXED HEIGHT STRETCHER

STRETCHER

Emergency room
Patient Transport

TECHNOLOGY & FUNCTIONALITY

multifunctional device
for specialized activities

gardhen bilance

www.gardhenbilance.it

LYING SURFACE
2 sections with gas-assisted backrest.

CARRYING HANDLES
positioned both foot-side and head-side for optimal grip during transport.

SIDES
durable and lightweight compasses.

WHEELS
antistatic, stainless and swivel - ø 200 mm.

BRAKE
centralized with directional system operable by bilateral lever.

Braking system

Centralized braking system with directional mode. Actuated by the appropriate bilateral pedals easily accessible by the operator - Equipment code AC7L2/G.

The back section is tiltable through:

CPR

bilateral leverage
(manually activated)

Adjustable backrest

The back section is adjustable by gas piston.

Also available electrically upon request (see optional components).

Do you want to change the color of the frame?
Frame or click the QR code and find out how to customize the device by consulting our color card.

Other features of the medical device

- Anti-tilt and non-deformable steel frame painted with anti-bacterial thermosetting powders. Color customization upon request.
- High stability.
- No clutter between upper and lower frame.
- Edge-free HPL laying surface easy to clean and disinfect.
- Layout surface made in two sections.
- Lying surface height (customizable upon request).
- Lying surface size (customizable upon request).
- Adjustable backrest with gas actuator. Also available electrically upon request (see optional components).
- ACB10 cable reel.
- No. 4 stainless anti-static swivel casters Ø 200 mm - Equipment code ACB14.
- Centralized braking system that locks all wheels at the same time, useful for ensuring maximum stability of the device - Equipment code AC7L2G.
- Lightweight and durable pair of compass tailgates that provide ample protection- Equipment code ACB3.
- Bumpers placed at head and foot.
- Ergonomic, fold-down push handles positioned on both the foot and head sides that provide optimal grip during transport- Part number ACB124.
- CPR control lever for backrest movement.
- Shockproof side bars.
- Removable mattress made of high-density foam resin. Height of the mattress is 80 mm - Equipment code ACB5 (also available 100 mm on request - see optional components).
- Upholstery made of class 1IM leatherette, a material that can be sanitized with commonly used detergents and medical surgical aids, with antibacterial, antifungal, stain-resistant properties. Color customization upon request - Equipment code AC87/1.
- Bilateral gas bottle compartment - Equipment code ACB10.
- No. 4 fittings for the pipe rod - Equipment code AC4LS.
- Available in three different capacities: max. capacity 200 kg and max. capacity 300 kg.

Do you want to change the color of the coating?
Frame or click the QR code and find out how to personalize the device by consulting our color card.

Do you want to implement the device?
Frame the QR code and discover all optional components by browsing the optional components catalog.

Dimension
