ASSISTIVE TECHNOLOGY

Frequent usage

Assisted mobility

Parking areas

Nursing home

Airports

Shopping malls

Train stations

Patient's admission in
hospital

Flexibility for every request

Integrated solution for assisted mobility. KAPPA offers an answer for short-range transfer from parking to buildings. KAPPA represents a useful aid for all those who want a walking support.

KAPPA CHAIRS ARE DESIGNED TO BE STORED IN LITTLE SPACE

Up to 10 chairs can be nested in a space of 3 meters

Standard features

Supporting structure designed to obtain maximum handling and control while driving.

- Frame in AISI 304L stainless steel, guarantees its integrity in the time even if subjected to the elements of time and to intensive and frequent sanitation.
- Seat, backrest and armrests made of polyurethane with additives UV protection.
- Push handle.
- Fixed rear wheels with a diameter of 200 mm and front swivel wheels with a diameter of 150 mm. They allow you to use the armchair even in paved outdoor areas.
- Patented rear wheel locking system. Thanks to the detail system, the wheels are always braked when the lever is not pressed.
- Steel footrest platform to facilitate patient accommodation;
- Safety belt, with quick release system and retractor.
- Armrests made of polyurethane, ergonomic, liftable which allow easy access to the session.
- Available in more than one colour (see page 6).
