## Benefits

Outstanding comfort sets Labtec stools apart. The seats and backrests are made from innovative 'soft touch' polyurethane. Comfort is combined with durability and easy cleaning. As standard, the stools are fitted with a gas lift height adjustment, an aluminium base and large castors.

The Labtec 115 features a polyurethane backrest that can also be used as an armrest. Alternatively, the Labtec 115 models can be equipped with adjustable armrests as an optional extra.
