

Surgimove

Surgeon chairs

Benefits

SurgiMove is perfectly suited for a wide range of surgical applications. Its advanced design delivers multiple positions including 360 degree adjustable armrests that can be provided as optional. Pedals are user friendly, the backrest and the armrests are fully adjustable allowing to the SurgiMove to reach superior comfort and adjustability.

Additional benefits include:

- Effective central braking system on two wheels
- Excellent maneuvering thanks to the double rim wheels
- Generous space for legs thanks to the frame design
- Comfortable height adjustment via foot pedal

2D armrest can be fitted only with seat fixed angle.

3D, 4D and revolving armrests can be fitted only with the adjustable seating angle.
