Laboratory

Benefits

The overbed table with C-shaped base is helpful in many sanitary contexts: thanks to its swivel wheels, it will be easy to move it from one place to another with extreme simplicity indeed. The open "C" shape of the table allows the use of the overbed table even in the case of patients sitting in an armchair. The top, made of plastic material, it is equipped with a slightly raised edge to contain objects or to prevent involuntary spills of liquids. Furthermore, the top slides horizontally and it is possible to adjust it in height by a gas spring mechanism. Thanks to this mechanism, the top can be adjusted in any position..

Standard features

- Steel structure painted with epoxy powders.
- Twin swivel wheels of 55 mm diameter with protective shell.
- Top made of plastic material with raised edge for containment.
- Height of the surface adjustable via gas spring adjustment.

OVERBED TABLE WITH "C" SHAPED BASE INTERGATED INTO ANTHO BEDSIDE CABINET

The overbed table with a "C" base is extremely comfortable since it can be positioned under armchairs, bringing it comfortably close to the patient. Furthermore, its design allows it to integrate perfectly with the Antho bedside table, fitting inside the special housings (see photo).
